

PRESS RELEASE

PYLOTE PRESENTS ITS PROPRIETARY INNOVATIONS AT PHARMAPACK 2017

Antimicrobial protection & time life's effects prolongation in pharmaceutical & cosmetic industries

Toulouse, 30 January 2017 – Pylote, the new player in the green mineral chemical sector, will exhibit at Pharmapack 2017 in Paris on February 1 & 2 (stand M49) with two of its major proprietary innovations, PYCLEAR™ PROTECTION & PYCLEAR™ DURATION, dedicated to pharmaceutical & cosmetic industries.

PYCLEAR™ PROTECTION is a major technological innovation that replaces antimicrobial preservatives used in many pharmaceutical and cosmetic specialties for which no change is needed in packaging nor in existing manufacturing processes. PYCLEAR™ PROTECTION provides an ideal “eco-friendly” answer to the regulatory authorities' requirements which are looking to remove the use of preservatives. Developed in full compliance with regulations (Ph. Eur., USP/FDA...), this solution is highly suited for multi-dose eye drop flasks, nasal spray used preparations, and also for skin care cosmetic products.

In 2016, Pylote received three major awards for its proprietary innovation PYCLEAR™ PROTECTION: the Pharmapack Award 2016 in the Best Exhibitor Innovation category for “Patient Protection & Cost-Efficiency in February 2016, the prize in the Excellence in Pharma-Packaging category at CPhI Europe Barcelona in October 2016, and the French Packaging Award 2016 in the Small & Medium Enterprises category in November 2016.

PYCLEAR™ DURATION is a complete technological innovation that extends utilization benefits and prolongs product's effects. The added values of this technology are numerous. For the consumer it extends time-life effect, reduces replacement frequency and corresponding installation work. It also reduces replacement frequency and thus material and transport requirements. In term of medical applications, PYCLEAR™ DURATION permits the drug delivery release control. Among various applications, this innovation is suited for pills, implants & patches and biological medicines.

Today, Pylote, with its exclusive manufacturing process, has more than 200 partnerships with industry worldwide and more than 50 to provide CE marking & AMM products.

ABOUT PYLOTE - Founded in 2009, Pylote is committed to green industrial chemistry in the mineral and ceramic chemical sector. Through the range of its efficient PYCLEAR™ solutions, Pylote conceives and develops innovative mineral microspheres to sell solutions which can be integrated into numerous consumer products. Pylote's solutions have a major competitive advantage as they make the end products smarter, by giving new and specific advantages and attributes to materials, with no change to the existing manufacturing process. Pylote helps their clients, who are present in pharmaceutical, cosmetic, luxury, food or industrial markets, to propose end consumers with more eco-friendly products that are greener, cleaner and safer.
