

PRESS RELEASE

PYLOTE WINS THE CPHI PHARMA AWARDS 2016 FOR ITS PROPRIETARY INNOVATION PYCLEAR™ PROTECTION

Toulouse, 5th October 2016 – At the CPhI Pharma awards ceremony, on 4th October, Loïc Marchin, CEO of Pylote, collected a prize in the Excellence in Pharma-Packaging category for its breakthrough proprietary innovation PYCLEAR™ PROTECTION.

Over 100 leading companies from the Pharmaceutical industry entered across 12 categories to make this the biggest event in the awards' history. The Excellence in Pharma-Packaging category is targeted on innovation in technologies, products, processes, and services related to primary and secondary packaging for finished drug forms including, but not limited to, tamper-proof packaging, child-safety packaging, labeling, intelligent packaging, and fill-finish.

On behalf of all Pylote staff, I'm very proud of this recognition by the professional and talented experts in this year's jury. It's confirmation of the real breakthrough of our innovative technological solutions. This also follows our successful participation at Pharmapack 2016 where we collected the Pharmapack Award 2016 in the Best Exhibitor Innovation category for "Patient Protection & Cost-Efficiency" commented Loïc Marchin, Pylote's CEO.

PYCLEAR™ PROTECTION is a real breakthrough innovation that replaces antimicrobial preservatives used in many pharmaceutical and cosmetic specialties for which no change is needed in packaging nor in existing manufacturing processes.

PYCLEAR™ PROTECTION provides an ideal "eco-friendly" answer to the regulatory authorities' requirements to remove the use of preservatives. Developed in full compliance with regulations (Ph. Eur., FDA...), this solution is highly suited for multi-dose eye drop flasks, nasal spray used preparations, and also for skin care cosmetic products.

The number one
pharma sourcing platform

ABOUT PYLOTE - Founded in 2009, Pylote is committed to green industrial chemistry in the mineral and ceramic chemical sector. Through the range of its efficient PYCLEAR™ solutions, Pylote conceives and develops innovative mineral microspheres to sell solutions which can be integrated into numerous consumer products. Pylote's solutions have a major competitive advantage as they make the end products smarter, by giving new and specific advantages and attributes to materials, with no change to the existing manufacturing process. Pylote helps their clients, who are present in pharmaceutical, cosmetic, luxury, food or industrial markets, to propose end consumers with more eco-friendly products that are greener, cleaner and safer.
