

PRESS RELEASE

PYLOTE DEVELOPS ITS COMMERCIAL PRESENCE IN JAPAN

Tokyo/Toulouse, 12 April 2017 – Pylote, the new player in the green mineral chemical sector, participates at CPhI Japan in Tokyo on April 2017 to promote its breakthrough proprietary innovations providing antimicrobial protection in the pharmaceutical and cosmetics industries.

During this most comprehensive pharma event, which brings together more than 20,000 pharma industry professionals from 100+ countries, Loïc Marchin, CEO of Pylote, will hold a conference on April 20 at 11:00 am on the beneficial effects of its breakthrough proprietary innovation PYCLEAR™ PROTECTION providing antimicrobial protection in many pharmaceutical and cosmetics specialties.

This presence of Pylote at CPhI Japan is part of its 2017 commercial development in Japan with the active and concrete support of *Business France*, the French national agency supporting the international development of the French economy and responsible for fostering export growth by French businesses.

“Pylote is today able to provide in the Japan pharmaceutical & cosmetic markets its proprietary solutions with complete statutory compliance such as Japanese, European and US pharmacopeias or Food Contact. Our solutions are totally ready to use and adaptable to every type of packaging, manufacturer & contents.” commented Loïc Marchin, CEO of Pylote

In the recent months, Pylote has conducted in Europe a whole set of agreements with key major players in packaging solutions, such as Argo in October 2016, for mutual referencing to provide innovative packaging solutions for greener, cleaner and safer unpreserved pharmaceutical specialties & ophthalmic products. Pylote intends to set such type of partnerships with major key players on these industries in Japan.

Today, Pylote, with its exclusive manufacturing process, has more than 200 partnerships with industry worldwide and more than 50 to provide CE marking & AMM products

Additional information

• PYCLEAR™ PROTECTION is a major technological innovation that replaces antimicrobial preservatives used in many pharmaceutical and cosmetic specialties for which no change is needed in packaging nor in existing manufacturing processes. PYCLEAR™ PROTECTION provides an ideal “eco-friendly” answer to the regulatory authorities’ requirements which are looking to remove the use of preservatives. Developed in full compliance with regulations, this solution is highly suited for multi-dose eye drop flasks, nasal spray used preparations, and also for skin care cosmetic products.

• In 2016, Pylote has received in Europe three major awards for its innovation PYCLEAR™ PROTECTION: the Pharmapack Award 2016 in the Best Exhibitor Innovation category for “Patient Protection & Cost-Efficiency in February 2016, the prize in the Excellence in Pharma-Packaging category at CPhI Europe Barcelona in October 2016, and the French Packaging Award 2016 in the Small & Medium Enterprises category in November 2016.

ABOUT PYLOTE - Founded in 2009, Pylote is committed to green industrial chemistry in the mineral and ceramic chemical sector. Through the range of its efficient PYCLEAR™ solutions, Pylote conceives and develops innovative mineral microspheres to sell solutions which can be integrated into numerous consumer products. Pylote’s solutions have a major competitive advantage as they make the end products smarter, by giving new and specific advantages and attributes to materials, with no change to the existing manufacturing process. Pylote helps their clients, who are present in pharmaceutical, cosmetic, luxury, food or industrial markets, to propose end consumers with more eco-friendly products that are greener, cleaner and safer.
